# OPTION 2: PRESENTATION OUTLINE

LECTURER: Alexander Lyon, PhD

STUDENT: Balaji Kendre

## INTRODUCTION

**Attention Grabber:** Hello everyone, what if you lost your smartphone --- or imagine losing your smartphone but being able to recover it safely.

**Audience Benefits:** *SmartSupervision AI* provides stronger protection against modern mobile threats. It improves security management across mobile device and monitors user activity to identify risks early

**Speaker's Background:** This is Balaji Kendre, few words about me an experienced telecom professional overs 10 years in the industry, worked with leading multinational companies such as Nokia and Ericsson.

**Bottom Line:** In today's presentation I would like to talk you about SmartSupervision-AI your smartphones intelligent security system. It would be my thesis statement.

**Preview** →

| 1. Problem | 2. Solution | 3. Integration |
|---|---|---|

## BODY

**First: problem**

Supporting Details

- Realistic security
- Global estimate: stolen or lost smartphones
- Global estimate: cyber attack victims each year
- Global estimate: unsecure level of supervision, children, under 18

Transition: 2nd solution

**Second: solution**

Supporting Details

- AI-powered switching data centre
- AI-powered OS or APP
- Special features detection, prevention and real time monitoring

Transition: 3rd integration

**Third: integration**

Supporting Details

- Standards and frameworks
- Security controls
- Real time traffic monitoring
- MDM
- Voice assistance
- Smart APP or OS activity management
- VPN integration
- Voice integration
- Insurance policy

Transition: conclusion

## CONCLUSION

**Signal the end:** If you missed everything else, I said so far here is last chance to grasp the main point of what I am saying in conclusion: - Improves Ai integrated security governance across mobile devices and user activity.

**Restate Bottom Line:** In this presentation we talked about three-part plan to protect your smart phones with SmartSupervision-AI your smartphones intelligent security system

**Recap the essentials:** We talked about problem, solution, integration for SmartSupervision AI Overall, the project concludes that AI-driven monitoring with automated security actions improves device governance,

**Make your ask:** I would like each of you to think of someone who may be struggling with smartphone security. Write that person's name down or save it in your phone.

**Closing:** Losing your smartphone can be a stressful experience, but SmartSupervision AI helps turn panic into protection.
